

Job aid to reconnect to Microsoft Office Communicator

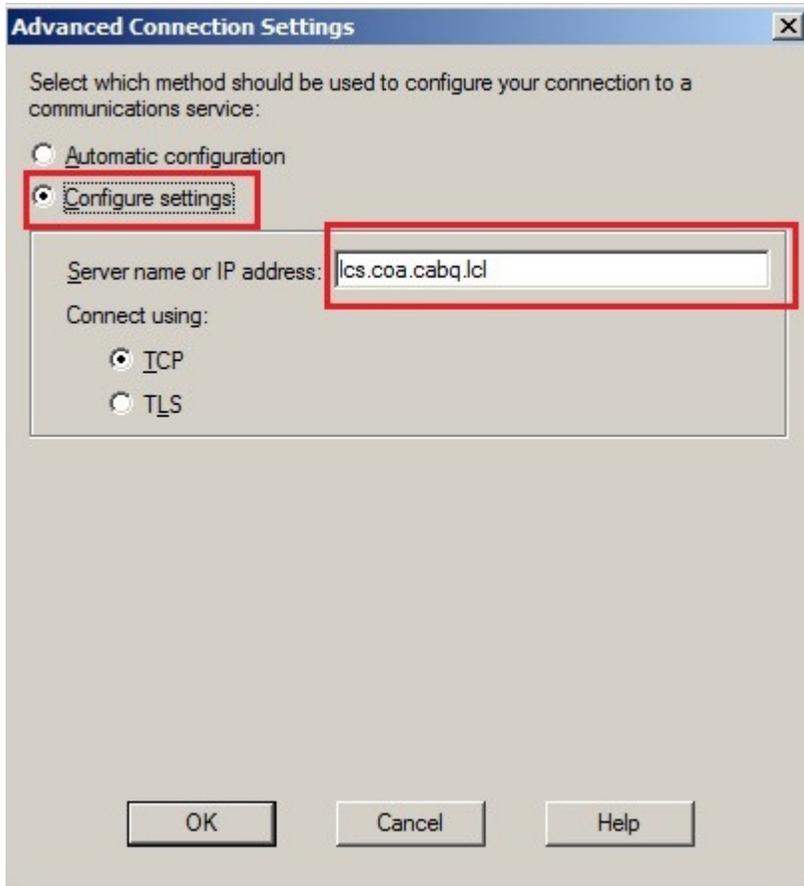

Open Communicator and click on Actions and then select Options.

In the Options dialog box click on the Accounts tab then click on the Advanced button.

In the advanced connection settings select the configure settings radial button and enter lcs.coa.cabq.lcl in the Server name box. Click OK twice to return to Communicator and sign back in.

If you run into any issues, please call the Help Desk at 768.2930
