The Definition of a Cyber Security incident:

An *incident* is any event that threatens the security, confidentiality, integrity, or availability of CABQ information assets (electronic or paper), information systems, and/or the networks that deliver the information. Any violation of computer security policies, acceptable use policies, or standard computer security practices is an incident. Incidents may include but are not limited to:

- Unauthorized entry
- Security breach or potential security breach
- Unauthorized scan or probe
- Denial of service
- Malicious code or virus
- Other violations of the CABQ IT Policies and Standards
- Networking system failure (widespread)
- Application or database failure (widespread)

To Report a Cyber Security Incident:
